## PLO-ULGX-UBM-01

UNIVERSAL UBM TO LGX SLOT BRACKET

LGX PEDESTAL BRACKET

The Plugin Optics UBM to LGX Slot Bracket is a purpose-built mounting bracket designed to facilitate the mounting of Universal Bulkhead Mount (UBM*, UBSM, USBM-T, & UBM-T) splitter and tap modules to be installed into LGX mounting slots. Use this module to install single wide UBM modules into a single LGX slot or double wide UBM modules into two LGX slots.

INSTALLATION

The following instructions are meant to act as guidelines only. Please observe all company safety and installation procedures when completing the installation.

UBM MODULE INSTALLATION

Plugin Optics UBM to LGX Bracket can be used to secure single and double width USBM, UBM-T & USBM-T modules. Slide the UBM module into the bracket between the side supports so that the face (where the connectors are located) of the UBM module sits against the UBM bracket faceplate. Secure the module to the bracket using a tie wrap or hook & loop strap. Route the tie wraps between the mounting bracket on the UBM and through the slots on the UBM bracket.

UBM to LGX Bracket with USBM 1x4 Installed.

UBM to LGX BRACKET INSTALLATION

Once the UBM module is installed into the bracket simply install the bracket into an LGX slot. Pull the plunger of each Nylatch style fastener to allow the bracket to be slid into the LGX slot. Once the faceplate of the bracket is resting against the LGX slot in the mounting solution, press the plunger until you hear or feel the click.

UBM to LGX Bracket with USBM 1x8 Installed.
