## LGX BULKHEAD FACEPLATES

OVERVIEW

LGX Bulkhead Faceplates are an ideal solution for adding fiber connection points to splice in, cross-connect, and customer demarcation locations. Single mode, 12 port and 24 port variants are standard, but they can be ordered in a variety of connector types, counts, and fiber types. These carrier grade LGX faceplates can be deployed in Plugin LGX chassis or other industry standard LGX compatible mounting solutions.
